## **DETAILED ACTION**

### ***Election/Restrictions***

Claims 11-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made without traverse in Paper No. 6.

Applicant's election with traverse of the species of Figure 2 in Paper No. 6 is acknowledged. The traversal is on the ground(s) that distinctness has not been shown and there would be no serious burden. This is not found persuasive because the species have been shown to be distinct (MPEP 809) and the prosecution of multiple species is deemed a burden on the Examiner. Should the generic claim be allowed, the species will be rejoined. Furthermore, the species are mutually exclusive and capable of supporting separate patents.

The requirement is still deemed proper and is therefore made FINAL.

Claims 7-10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 5, the "inner fin" is "provided in each heat transfer tube" as recited in claim 3.

Art Unit: 3743

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Nagase et al (Figure 7).

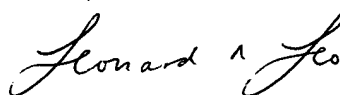

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Tomoko (Figure 5).

***Conclusion***
